

## RICARICAEV Network Access

RICARICAEV .it is the first EV charging network in Italy, which allows users to recharge their electric vehicle free of charge simply by using their personal health card or an RFID card, after registering on the RICARICAEV.it website.

In order to access the charging service, non-Italian users have 2 alternatives available:

- **REQUEST TEMPORARY CARD IN SHOPPING CENTERS AND SUPERMARKETS**

You can charge your vehicle free of charge at all charging points located near shopping centers and supermarkets by **asking for a temporary RFID card at the reception** during opening hours.

- **PURCHASE A PERSONAL RFID CARD**

You can **request an RFID card** to access free RICARICAEV charging stations in Italy and charge your vehicle (\*).

In this case follow these **3 simple steps**:

1. **Fill in the form** below with your data and send it back to ***service@ricaricaev.it***

2. **Pay 25€** by **bank transfer** to:

***Seh srl***

***Via Primo Maggio 8, 20068 Peschiera Borromeo - MI - Italia***

***IBAN: IT 69 B 03069 33730 1000 0001 7111***

***SWIFT/BIC: BCITITMM***

***Reason for payment: "ricaricaev - your name and surname"***

3. **Wait! Your card** will be **shipped** to your address (1-3 working days after payment receipt)

You will receive a RFID card and an invoice to the address you write in the form and an account will be created with a default password, that you will need to change in your personal settings.

## RICARICAEV.it card request form

**ATTENTION!!!** The card can be used ONLY at the FREE charging points of the circuit (e.g. Rondinelle Shopping Centre - Roncadelle (BS)).
